

Dear parents/carers

Our school is now using **CHATTA**, an app to support children's communication and language skills.

Teachers will be making stories (using photos and words) with your child in school. We will be sending a link home (via the school app) so that you can see these stories / 'chats'. We would love it if you could encourage your child to tell you each story. An idea of what they could say will be recorded in the 'chat', but children can use their own words.

If you and your child would like to make up your own Chatta stories about trips to the park / making things at home etc. you can join the "Chatta Matters" group on facebook. This will give you access to the free app and suggestions of stories / 'chats' you could make with your child.

You can find out more about the app by following this link:  
<https://chattalearning.com>

If you have any problems accessing these 'chats' or would like any more information please come and see one of the teachers.

We are really looking forward to sharing our 'chats' with you!  
Mrs. Shepherd / FS Staff
